OUR MISSION

The Silkroads association gives its Chinese and French members the opportunity to share, both in France and in China, unique and intense experiences, through which they discover France's and China's economy, culture and industry. In turn, they can share their knowledge with the other students of their universities.

For French and Chinese students, Silkroads constitutes a structured and attractive platform where they can engage in thorough discussions on French-Chinese issues.

Thus, Silkroads boosts not only its members' skills, but also the aptitudes of all the students in terms of dealing with cross-cultural issues and adjusting to diverse environments.
