

EURAXESS Links China,
in collaboration with ThinkIN China and Understanding Science, presents:

EURAXESS Science Slam China 2013

Take part in the first EURAXESS Science Slam China, show your talent in science communication and win a trip to Europe!

If you are a young researcher (PhD or post-doc ongoing or completed less than 2 years ago) currently based in China, enter the competition by posting a video featuring your presentation skills on <http://u.youku.com/EURAXESS-ScienceSlamChina> or sending it directly to china@euraxess.net **before 10 September.**

The authors of the 6 best videos will be selected to join the **EURAXESS Science Slam China 2013 finals on 26 September in Beijing** and compete for the first prize!

About EURAXESS Science Slam China 2013

EURAXESS Science Slam China 2013 is the first edition of an event giving young Chinese and international researchers in China the chance to showcase their work as well as their communication and creative skills in front of members of the research community and the wide public, in a joyful and convivial atmosphere.

Every finalist (*selected via online video posting, see the 'Terms & Conditions' for further details*)

will present a topic related to his or her research in front of an audience of non-experts. The presentation will be given in English in less than 10 minutes and can be supported by video and audio material, slides and any other kind of media available, as well as by scientific equipment.

The audience will judge the participants' performances. **Creativity and originality** will be of the essence to arouse interest and get the votes! The best performer will be awarded a round trip to Europe where he or she will attend the EURAXESS Voice of Researchers Conference, along with the winners of the other EURAXESS Science Slams organized in North America, Japan, India, ASEAN and Brazil.

The event is open to researchers of **all nationalities** currently based in China active in **all fields of research**.

Considering joining in? See the 'Terms and Conditions' for all the details about the event and how to participate.

The organizers

About EURAXESS Links China

EURAXESS Links China is a networking and information tool for European researchers active in China and for Chinese researchers interested in collaborating with European research. The network is sponsored by the European Commission and has a representative based in Beijing.

EURAXESS Links China has a website, an online network of over 860 members, a monthly newsletter and other online publications. EURAXESS Links China also organizes networking, intelligence-sharing and collaboration-supporting events throughout China.

EURAXESS Links China is part of the EURAXESS initiative which supports career-development of mobile researchers worldwide.

About ThinkIN China

ThinkIN China was created at the Bridge Café in September 2010 by a small group of young researchers who live and work in China. Since its very beginning TIC was conceived as an informal 'agora' for debate on contemporary China. The idea that inspired the birth of TIC was to create a genuine space of reflection, discussion and dialogue about China in the heart of China's academic crossroad in Wudaokou, Beijing.

About Understanding Science

The purpose of Understanding Science is to make a broader public aware of today's accomplishments in research through short scientific lectures given in English as well as to give a non-expert audience an opportunity to talk with scientists currently carrying out research in China, in a friendly and convivial environment.

Understanding Science is organized by the UK Royal Society of Chemistry (RSC) and the Institute of Physics (IoP).
